CALL FOR SPEAKERS AND PROJECTS

The OpenTechSummit is an open technology event in Europe for developers, startups, and contributors. In 2016 the event takes place in Berlin on 5th May. Talks, workshops and projects at the OpenTechSummit range from Open Hardware, to design, Libre Graphics, Maker projects and Free and Open Source Software.

For our 2016 feature event we are looking for speakers that share our passion about code and community. We are interested in topics including:

- Machine Learning, Internet of Things
- Open Source and Free Software
- Open Hardware
- Open Data and Free Knowledge
- Linux
- Containers
- Virtual Reality, Design, 3D

Participants from around the world are expected to join the event. The first OpenTechSummit took place in Taiwan in 2009.
